

UnDo™

Carpet Chemical Build Up Remover

What it does.

UnDo™ Carpet Chemical Build Up Remover is specifically formulated to break up chemical build up left in carpet after prolonged extraction, spotting and bonnet buffing. Leaving these “dirt grabbers” in the carpet is a major cause of rapid re-soiling.

How to use it.

Apply and Agitate. Apply to carpet using 4 oz. per gallon of water. Work into carpet using an extractor brush with the vacuum turned off or a cylindrical or rotary floor machine. Let work for 15 to 20 minutes and flush with clear water.

What's in it?

Super-charged proprietary surfactant specifically engineered to remove chemical residue.

What's not in it?

No hazardous, caustic or toxic ingredients, by any standard. No optical brighteners. No solvent whose residue attracts dirt. No acid or alkaline whose residue attracts dirt. No inferior surfactant whose residue attracts dirt.

Consult MSDS on reverse side for additional information

How to get UnDo™ Carpet Chemical Build Up Remover.

Gallon (4/case): Order item 1101

Pail (5 gallons): Order item 1105
